Subject: Risk Assessment call next Tuesday, December 21, on West Lake SFS risk assessment comments

All,

As we discussed during our call yesterday on the remainder of MDNR's West Lake SFS comments, I have polled our regional risk assessor to get his availability for a conference call next Tuesday, December 21, to discuss the EPA and MDNR comments on the risk assessments which Paul may need clarification on. I and my risk assessor are available all day except for about 11:30 to 1PM Central.

Shawn and Rich, please let Paul know about your availability for this call. If we can't get it set up then, our back-up dates were January 5, 6, or 7, 2011.

Rich, sorry again that technical limitations of the conference call line prevented you from joining us. We worked through the remainder of the MDNR comments which Paul needed clarification on.

Sincerely,
Daniel R. Gravatt, PG
